**2017**

Our new catalogue listing is a spreadsheet, which we think is more useful and cost effective than a printed version. The list has two functions: it is our price list for 2016 and the basis on which to make orders for 2017, which is explained in more detail below.

We know from the number of requests we get for duplicate copies that many of you are not good at filing either paper or virtual copies, but e-mail saves a lot of time and money (and paper)

In a ideal world what you would do is open the attachment now and save it to your hard drive. Then make a second copy which you can sort and edit, but still have the original to fall back on. It is sent in alphabetical order, but you can sort it how it suits you at any particular time.

Varieties that are marked as 'Regular' we will definitely be propagating and you can reasonably expect them to appear on our availability list at some point in the next eighteen months, although some will sell out before they reach the availability list. In contrast we will not necessarily be propagating those lines marked as 'To Order' unless we have orders in hand when the decision time comes. It is never too early to order. The answer to the FAQ, "when is it best to order?", is NOW!

If downloading causes you any problems then let me know and if I can't sort the problem I can post you a copy.

**How to get the most out of our range.** If you order from the catalogue only, you will miss some varieties that appear only on the availability list: because we were not confident enough of them, did not have enough or they were a new idea. If you order only from the availability then you will miss out on the lines whose popularity exceeds our ability to produce them, and those that we only propagate to order.

We continue to offer a discount based on the value of plants supplied. As the bands at which these apply (2.5% at £2.5K and 5% at £5K) have not changed for more than twenty years they do offer a significant incentive. Think of it as a loyalty scheme. If you pass one of these limits during the year you will receive a retrospective discount on the value of the invoices to date, assuming that invoices have been paid on time.

The prices will apply for this calendar year and until we publish a new list. We charge the price ruling at the time of delivery so orders for 2017 will initially show the 2016 price and an updated copy will be sent early in 2017.

Let us hope for a mutually prosperous year.

## TERMS AND CONDITIONS

These terms replace any previously published and the placing of an order indicates acceptance of them. Terms for export orders may vary from these; variations will be notified with the confirmation of an order.

All prices are subject to VAT.

Orders are confirmed subject to crop.

At our discretion:

- a) we will add an administration charge of £5.00 to invoices of less than £30.00.
- b) all invoices for less than £100 (before VAT is added) are due for payment on delivery/collection.
- c) the foregoing will still apply if the delivery is one of several in the season.

We ask for payment on delivery/collection from all new customers for their first delivery, or against *pro forma* if we are despatching by carrier.

All other invoices are due for payment within 30 days of invoice date. We reserve the right to add deductible credit charges to invoices and charge interest at 1% per calendar month on overdue amounts. This is not an offer of extended credit. Discounts will be progressively forfeit on overdue invoices.

The following discounts are available, applied to all invoices, if payment is made in accordance with our credit terms. These discounts are discretionary and may not be allowed if there is a history of cancellations or other actions which cost us money.

Every effort is made to supply plants true to name and in a healthy state. In the event of any defect our liability will be limited to the invoice value of the affected plants.
